To whom it may concern:

My name is Becky and I have worked with Care Dixon for a few years. With our departments close interaction, we have worked together on many topics and projects.

Care is always willing to help anyone who needs help. She is always going above and beyond to make sure everyone has everything they need and is encouraging along the way. Coming in early or staying late, she is always willing to do what is needed for her department and others. Even with her encouragement and desire to help, she can also be firm when needed. She is constantly looking for ways to improve every aspect of her department. She is strong and confident in her ability to do her job but is also humble enough to ask a question when needed.

Her compassion for her job is only topped by her compassion for the patients she is trying to help. She is a huge asset to her department. She is also a huge asset to the other departments, like mine, that she serves.

Thank you for taking the time for me to describe my coworker and friend. If you should need anything further, please let me know.

Thank you,

Becky Bates
